# Octogatos

## Making GitHub a place where everyone belongs

We are dedicated to building a community and team that reflects the world we live in and pushes the boundaries of software innovation.

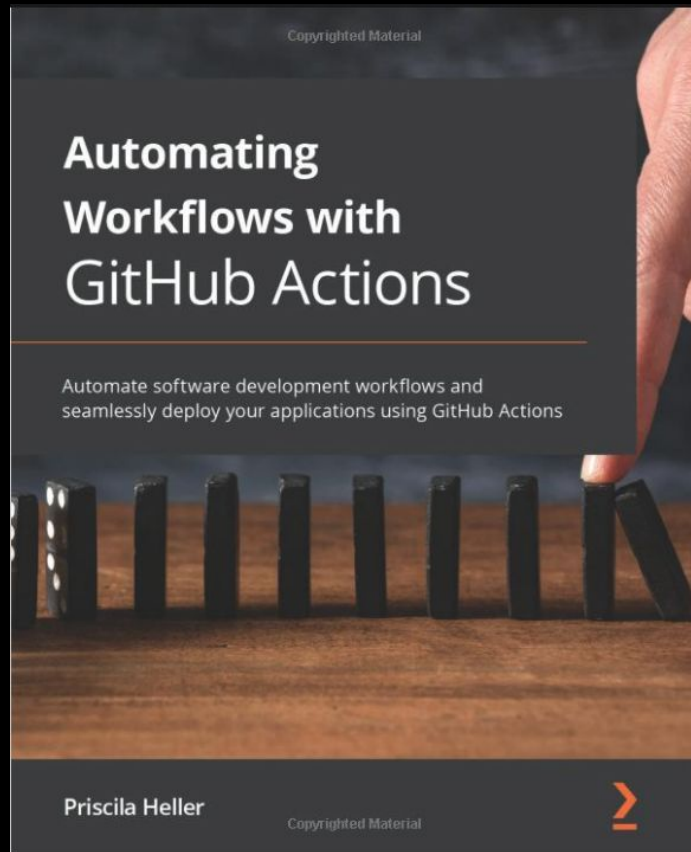

## The power of people

We believe in the transformative power of engaging different perspectives. That's why we hire talented people from around the world and encourage building strong networks that cross backgrounds, time zones, and accents. We are built to be truly global.

# Automating Workflows with GitHub Actions

- Un libro para principiantes en GitHub y GitHub Actions
- Disponible impreso y en Kindle
- <https://tinyurl.com/sq-conferencia>

# GitHub Actions y Low Code

# GitHub Actions: una receta simples

## Ingredientes:

- Evento
- Job
- Paso (step)
- Acción
- Ejecutores (runners)

## Herramientas

- 1 repositorio en GitHub.com
- 1 carpeta llamada *.github/workflows*
- 1 archivo con extension *.yml*

# GitHub Actions: una receta simples

Resultado: ¡1000s de posibilidades!

CARACTERÍSTICA	GITHUB ACTIONS	LOW CODE
Seguridad	✓	✓
Escalabilidad*	✓	✓
Reutilización	✓	✓
Accesibilidad multiplataforma	✓	✓

\* Escalabilidad es posible con self-hosted runners

**A cocinar!**  
(demo)

1. Crear una cuenta en GitHub.com
2. Crear un repositorio
3. **Reutilización**
  - Flujo de trabajo 101: traduciendo un issue
4. Flujo de trabajo 201: cerrando un proyecto y creando un nuevo release y etiqueta Git (tag)
5. **Seguridad** y **Accesibilidad multiplataforma**
  - Flujo de trabajo 301: 201 + notificación en Slack
  - Crear una nueva app en Slack
  - Añadir la guía de la nueva app (webhook) a los secretos de mi repositorio (**SLACK\_WEBHOOK\_URL**)
